

► VICTORIA ARDUINO

WHITE EAGLE

PRODUCT INFO

The latest eagle to land that provides many of the same technology and features as the world renowned VA388 Black Eagle

KEY FEATURES

- Multi boiler technology options provide incredible temperature stability and consistency for greater product repeatability
- PID boiler control alongside high grade components and design provides remarkable efficiency and power savings
- New Nanotech Cool Touch steam wands reduce milk wand residue and the potential for any H&S burn incidents
- Individual group head temperature adjustment provides greater blend flexibility
- Shot timer display allowing the barista to easily and effectively monitor extraction times throughout service
- Raised group heads for tall cups
- Push / Pull steam lever system
- Easily customised to suit the company brand & image
