

► VITRIFRIGO

# FG10I

## PRODUCT INFO

The FG10i is designed with an advanced compressor system to work specifically as a milk cooler, alongside the world's top brand coffee machines.

## KEY FEATURES

- Compressor-cooled to ensure a consistent, hygienic milk-holding temperature
- Milk hose holes are factory pre-drilled on both sides and top
- Extremely reliable with a consistent finished drink temperature
- A perfect companion to the Rex Royal S200
